XTEND LAUNCHES CDMA FCTs

Fixed Cellular Terminals now available on CDMA networks

Bangalore, October 30, 2004. Xtend Technologies Pvt. Ltd., a leading provider of GSM Fixed Cellular Terminals in South India, today announced the launch of the Xtend CDMA FCTs at Bangalore IT.COM 2004.

Taking advantage of the benefits present in the competitive mobile network market, Xtend CDMA Fixed Cellular Terminals allow users to save on their communication costs. For example, utilizing the newly launched Joy 499 scheme of Reliance, users can call any phone in India at the rate of Re. 1 per minute. For companies which generate many marketing and support calls around India, the benefits of implementing a Xtend CDMA FCT on their telephone network would be immediately apparent.

Exhibiting at Stall No. 27 in the Software Solutions, Knowledge and R&D (Pavilion 5) of Bangalore IT.COM, the Xtend GSM and CDMA FCTs are a must-see for anyone looking at reducing the communications costs of their company.

About Xtend Technologies (P) Ltd.

Xtend provides Interactive Voice Response Solutions and Mobile Commerce Solutions via its RAD toolkits "Xtend IVR" and "Xtend SMS". These products have been used by prominent Satellite channels, Engineering colleges, Banks, Telecom and other private and public sector companies for dissemination of information to their customers. In the Telecom sector, Xtend manufactures Fixed Cell Terminals (FCT).

Xtend is also the recipient of the "Best Innovative Products" Award of IT Kerala 2000 held at Technopark, Trivandrum.
